25X1A

1. On 27 February 1960 we talked with  on the telephone, and explained our position. He likes the idea and is willing to talk with someone from Washington. Anytime from March 15 to the end of March would be satisfactory. He said he plans to leave in mid April (probably for Rome) so we suggest the ORR man come out as soon after the 15th as possible. This would give a typist time to get the feel of the work before  left for Europe. 25X1A

25X1A 2.  said that since he talked with us in January there has been another development. The Secretary General of the Barth Foundation is coming to Honolulu on 11 March for a few days to discuss publishing some of his material on the Three Great Principalities of West China. We acquired no further details, but do not view this as conflicting with our plan.

3. On the typing, the standard rate in Honolulu is about \$2.00 an hour for a competent, reliable typist. It may be that half a day would be preferable to a full day, particularly if  has 25X1A to be present to help the typist read his writing. A full day might be too much for  We visualize no problem in locating a good typist. There is a possibility that  our secretary now 25X1A on maternity leave, or  our temporary secretary, might be available for the project.

4. Let us know as soon as a date is decided on so that we can alert
